

## GUIDELINES

### Repertoire: “Shout for Joy” - Psalm 100, WEB

1. Practice singing with Mr. Spanos’s video. The practice video can be found [here](#).
2. Make sure you position your phone or device so you get the best possible sound. If you’re using a nice camera and microphone, great! Try to eliminate background noise as much as you can and try to avoid distortion by getting too close to the mic.
3. Record your video **using headphones**. Sing along with the backing track so you’re in time.
4. Upload your recordings/videos in the Google form [here](#).
5. If that doesn’t work, just email it to [spanos.n@icshazleton.org](mailto:spanos.n@icshazleton.org).
6. Rename your file in the following format:

**NAME - Psalm 100**

Ex: Mr. Spanos - Psalm 100

7. I’ll take care of the rest! I’ll share it when it’s all done.

#### Audio suggestions:

- **ALWAYS USE HEADPHONES**
- If you have access to an external microphone, that will usually yield better quality audio.
- Recording Ideas:
  - Use your phone camera. Experiment with placement and orientation for the best sound.
  - If you have a **Mac**, you can use Photobooth with external or internal mic to record. I don’t have a PC to test on right now, but I’m sure there’s an equivalent option in **Windows**.

#### Video Suggestions

- **Use a well-lit area with an uncluttered background or white sheet so we can see your face.**
- Don’t worry about any specific fancy attire - come as you are.

*Note: If you’d rather just send audio, that’s fine!*

Please send your submissions by **Thursday, 5/28/20** so I can put the video together.

Email [Mr. Spanos](#) if you have any questions!
